

INCREASE YOUR TEMPO WITH THE BEAT OF A NEW DRUM.

The Saniflo™ DUS (Drum Unloading System) is a unique pneumatic drum pump unloader capable of unloading full size drums in a matter of minutes. This system is designed for viscous fluids that present application challenges for other drum pump unloaders. The DUS is dependable, reliable and efficient, significantly improving your product recovery rates and increasing your profits.

Get your process in tune with today's newest technology

SANIFLO™ DUS
SANITARY PUMP TECHNOLOGY

FEATURES

- Designed for viscous fluids up to (XXX cps)
- Pro-Flo V™ 51mm (2") discharge pump compatible
- Stainless Steel Construction
- Sanitary elastomers
- Pneumatically operated
- Accurate drum alignment
- Variable operating pressure
- Intrinsically safe operation

BENEFITS

- Unloads 200kg (55 gal) in minutes
- Complete drum utilization
- Prolonged reliability
- Low operation cost
- Self priming
- FDA CFR 21 compliant
- Trouble-free operation
- Increased recovery rates, yields, profits

APPLICATIONS

- Tomato Paste
- Juice Concentrate
- Jams & Jellies
- Syrups
- Light Icings
- Pie Fillings
- Lotions, Creams
- Condiments (mustard, ketchup, mayonnaise)
- Other viscous fluids

HOW TO SPECIFY YOUR

SANIFLO™ DUS SANITARY PUMP TECHNOLOGY

- Complete drum dimensions
- Viscosity
- How many Chimes
- Drum Material
- How fast do you want product pumped

OTHER DRUM SOLUTIONS

TYPHOON MIXER

- Patented conical up-flow impeller
- Automated drum lift systems
- Up to 18,900 L (5,000 gal.) size containers
- Fully pneumatic operation
- Designed to keep your process solids in suspension
- 8,000 centipoise
- Portable mixing units
- Low shear mixing and unloading of fluids with suspended solids

DRUM PUMP KIT

- Uses 1/4" & 1/2" or UNITEC™ Pumps
- Fits 51mm (2") NPT bungholes
- Pick up tubing included
- Offered with Nylon, PP or PTFE tubes
